## STEWART'S BONES AGAIN.

The body of A. T. Stewart has had quite a rest. A New York paper is digging it up again. A recent telegram says: "An inconsequential newspaper of this city has advertised extensively lately, that it would have the whole true story of the stealing of Stewart's body this morning. The narrative of facts in connection with the search for the stolen body of Stewart, the first chapter of which is given below, is so voluminous, that in order to admit of the publication of the current news of the day, we are compelled to give only a portion of it this morning. The entire story would fill very nearly three pages. The remaining chapters will fill a large amount of our space during the next four or five days, each installment increasing in interest as the story develops."

## EDITORIAL NOTES.

The New York Nation asks for an explanation of what it seems to regard a great mystery: Why the price of French wines in this country has remained perfectly steady since 1876, in spite of an immense diminution of the grape crop in France, which has made the vintage in that country unequal to the home demand? The answer is not difficult. New York and the rest of the United States is deluged with bogus adulterations, which go under the name of French wines, and a gullible set of donkeys prefer to drink the fraudulent stuff in preference to good, wholesome California wines.

The citizens' bid was accepted by the Board of Insane Commissioners, although it was the highest offered. The work will undoubtedly be well done, and the bills all paid, as they ought to be. The action of the Board will be approved by the tax-payers of the State almost unanimously we believe.

The latest amusement is called the "Printer's Delight" and is performed in the following manner: Take a sheet of note paper, fold it carefully, then enclose a bank note sufficiently large enough to pay all arrears and a year in advance.—*Emerald Herald.*

The New York Sun is inclined to think there is something like snap judgment in the adverse decision of carping people in the matter of Bible revision after a ten minutes' perusal of the work, which took thirty-eight scholars ten years to complete.

A statue has recently been found in a mound on the Egyptian Railway line. It is believed to be 4,568 years old, and if this is confirmed it will probably be one of the oldest known statues in the world. This statue is about being removed to Cairo.

President Bacon, of the University of Wisconsin, thinks that if we look broadly at the religious experience of the world we shall be led to feel that religion is one of the most obscure, confused, variable and subtle facts in human life.

Whose is this?  
Hast thou no feeling,  
To see me kneeling,  
My love revealing  
Days after days?  
Yes, I have feeling  
To see you kneeling,  
Your love revealing  
Take it away.

The committee appointed by Gov. Perkins to investigate the Harbor Commissioners, find all their affairs well administered.

The Transcript says Nevada City's trustees have made all arrangements for the electric light. It will hang fire no longer.

A revised New Testament peddler was chased out of an Iowa town by the women, who resented any change in the book.

The grasshoppers in Carson valley are traveling in a southerly direction. Paradise will have horse racing on July 4th.

The Western bound passenger lists are getting as long as to be quite a tax on the city newspapers.

## PACIFIC COAST NEWS.

### TERRITORIES.

Thomas Wyatt, Minersville, Utah, killed himself last week while insane. The great wool counties of Utah are Kane, Utah, Piute, Iron and Millard.

Saturday the Northern Pacific Railroad was completed to Spokane Falls, W. T.

The Antimony Mining Co., of Utah, shipped two car loads of antimony east Saturday.

The Salt Lake Tribune takes the Salt Lake and Western road as a matter of course.

The Idaho Democrat says Boise City and valley are receiving large accretions to their population.

Parley's Canyon and Emigrant Canyon, Utah, are filled with railroad surveyors and graders of the Utah Eastern.

There is an army of masons engaged in piling up the rock foundation of the Academy of Music in Salt Lake.

The famous Lexington mine at Butte Montana, was sold lately to Medhurst, representing a French company, for \$1,000,000.

Indians report at Pomeroy, W. T., that the whites in Palouse county are driving off their cayuses, 150 at a time, and there will be trouble if it is not stopped.

More strangers are seeking homes in Salt Lake now than at any time in the past ten years. They come from the East and West, and what is better they are Americans, not slaves to the Mormon Church. The Tribune bids them hearty welcome.

The Salt Lake Tribune says: It is a curious taste some of the builders of Zion have of putting up brick houses and then covering them with mud fronts. There is plenty of lead and lots of point in these valleys of the mountains, and these are cheaper and more durable than mud. Let's have a new departure.

The Yuma Free Press of Saturday says: A grading party of the Atlantic and Pacific Railroad Company broke ground on the 16th instant at a point on the Colorado River, 10 miles above the Needles. Work has been done on both sides of the river, and a bridge crossing has evidently been located. The party is in charge of Civil Engineer Bates.

### CALIFORNIA.

Two cases of small-pox at Stockton. Redding wants a water ditch to irrigate the gardens of that pleasant and thriving town.

Mrs. Logan of Red Bluff, has a cream-colored mountain lily of an unknown species blooming in her garden.

A hundred and ten hands are employed in picking fruit on General Bidwell's ranch at Chico. Over 30,000 pounds of blackberries were shipped in one day last week.

Chas. Gamp of Del Norte county, was a shattered left arm, the result of pulling a loaded gun toward him by the muzzle.

A fire occurred in the San Quentin Prison in the California Door Co.'s dry-house Saturday afternoon. Not much damage was done.

W. H. Poyner, 20 years of age, fell dead Friday afternoon while unloading a header wagon near Atlanta, San Joaquin county.

A gentleman from San Luis Rey, San Diego county, informs the Los Angeles Herald that ex-Constable Rowe, reported lost in the mountains, put in an appearance at that place the other day.

It is noticeable that visitors at East Park appear to have a more distant regard for the ape confined there since the monkey wrenched his chain apart three last week for the benefit of a well-known citizen.—*Record Union.*

Late last week a large transaction in wheat occurred in San Francisco, which has heretofore been kept quiet. Fifty thousand sacks of Walla Walla wheat was bought from the Mission Rock warehouse at \$1.42½ the storage for the season paid for the same lot. One dollar and ninety-five cents was offered last season, but \$2 per 100 was demanded.

### OREGON.

The graduates of '81 from the State University planted a "class tree" in the University grounds on the 15th.

The ship Clan Grant has cleared from Portland for the United Kingdom with a cargo of flour valued at \$116,182.

Coal found in the mountains west of Junction, Lane county, has been tried by experts and found to be the best anthracite.

Two English ships with cargoes of railroad iron for the Oregon Railway and Navigation Company, arrived at Portland Saturday.

A steamer is building at Lickville for Big Lick Lake. It will be a screw propelled of 35-horse power, 60 feet long and 12 feet beam.

Two hundred men and forty teams are engaged grading on the narrow-gauge railroad south of Brownville. A party of engineers are now locating a road south toward Coburg.

The waters of Silver Lake have been rising for some time, and are now around the house of George Durand and on the desert for several miles out. This great rise is attributed to the heavy fall of snow which came in

the winter of 1879-80, followed by the very wet weather of last winter. If the lake keeps on rising the desert lands will soon be fit to cultivate.

Yesterday morning at Portland, from 7 o'clock, a succession of plainly visible halts encircled the sun, presenting dimly all the tints of the rainbow.

### NEVADA.

No Deputy Constables will be allowed in Virginia City hereafter. Tailors, shoemakers and ice cream peddlars on the Comstock want their licenses remitted.

The Mint at Carson is undergoing an overhauling in its management by officers of the Bureau, Washington, D. C.

The Genoa stage upset yesterday with four passengers inside. No one was hurt. J. W. Sunderland, the driver, is complimented for his skill in handling the runaway team.

The Mechanics' Union of Storey county, Saturday night, elected the following officers to serve for the ensuing six months: President, Daniel Kelly; First Vice-President, J. D. Campbell; Second Vice-President, Messers Moore; Recording Secretary, J. W. Plant; Financial Secretary, W. A. McIntosh; Treasurer, C. M. Brown; Marshal, J. A. Foster; Sergeant-at-Arms, J. B. Preusche.

The narrow-gauge railroad of the Lyon Mill and Mining Company, at Dayton, was completed last week. Curves of forty, fifty and sixty degrees are frequent on the main line. The average grade is one hundred and fifty feet. The road is to be used in connection with the tailing beds owned by the company, to aid their easy and economical working. Its cost aggregates \$12,000.

### ONEGON.

The city election which came off in Portland, on the 20th inst., was a triumph for Mitchell over Williams. Senator Williams' friends concluded to run the city in their own interest, and then call it a Williams victory. This would hardly do for Senator Mitchell, and of course he brought out his forces by the nomination of Simon, a Republican, the Williams party having nominated the present Mayor for re-election. Simon, the Mitchell candidate, received 9 majority. This is considered a great victory for Mitchell, inasmuch as his strongest opponents are in Portland.

### Sporting Notes.

Frogs are shot in New Jersey for the New York market.

The entries in the June Crystal Palace dog show numbered 1,350.

The cost of Mr. Lorillard's stable so far in England is upward of \$300,000. Winnings small in comparison.

Our late races have demonstrated that not all of our best horses have gone abroad. Hindoo, for instance.

Four hundred dollars per day is paid for the privilege of supplying drink and food to the hungry and thirsty at the Sheephead Bay races.

Riding the tricycle is becoming fashionable among English women. The Queen and the Princess Beatrice ride the iron horse around Osborne.

The rumor that Mand S. had been drawn from her work was erroneous. She is reported in first-class order for her initiatory trial in Toledo next week.

"I just went out to see a friend for a moment," remarked Jones to his wife the other evening, as he returned to his seat at the theatre. "Indeed," replied Mrs. Jones with sarcastic surprise, "I supposed, from the odor of your breath, that you had been out to see your worst enemy." Jones winced.—*Boston Post.*

A Lady Correspondent.  
Mr. Editor: In a recent issue of your paper, "Daisy R." writes to know what to do when she has the "blues." Now, I have been troubled with that very unpleasant and peculiarly feminine complaint in the past and I am quite sure my experience will help her. I don't believe those indolent feelings come because things don't go right around us, but because matters do not go right within us. Every lady understands this and knows the cause. For years I suffered terribly, and I now know that I might have avoided it all had I known what I do today. I tried taking Warner's Safe Kidney and Liver Cure as an experiment, and it did for me more than I could ever dreamed it possible to do for any woman. I would not be without it for the world, and I earnestly advise Daisy R. or any lady troubled as she was to use the means which I did and I am sure it will have the same effect.

Stop  
And examine the elegant stock of new and second hand furniture for sale at the Red House auction and commission store just opened.  
All watches and jewelry repaired or made to order, is guaranteed as represented at L. Fredrick's.  
NEW TO-DAY.

Census of Cereals.

Illinois is reported by the census office at the head of the list for corn, with a crop of three hundred and twenty-seven million bushels. Iowa had two hundred and seventy six million, Nevada twelve thousand nine hundred bushels. In wheat Illinois is also first with over fifty-one million bushels, California is seventh with twenty-eight and three-quarter millions. Nevada harvested seventy thousand bushels. Illinois is away ahead again, on oats, having produced over sixty-three million bushels. California raised nearly double as much barley as any other State, nearly thirteen million. New York had seven million, Nevada half a million. Pennsylvania was ahead on rye and New York on Buckwheat.

French at Carson.

The Tribune gives the work of the Committee of Arrangements at Carson. They have invited Hon. Wm. Woodburn of Virginia City, to deliver the oration; W.G. Hyde of Gold Hill, the poem; and Rev. Mr. Reid of Virginia, to read the Declaration of Independence, on the Fourth of July. This is as it should be, viz., extending all possible honors to the good people of Storey county. S. H. Day, Esq., of Carson, has been appointed Grand Marshal of the day.

THE ASYLUM CONTRACT.

The Citizens' Bid Accepted and an Entry Decision Exp. cited from the Supreme Court.

The Board of Asylum Commissioners met in Carson yesterday. It was hoped that the Supreme Court might give an intimation of the expected decision from the Bench. The intimation was not given, however, and the Board proceeded to act. Members of the Commission informed a GAZETTE reporter that they did not doubt that a favorable decision would be rendered by the Court. The bid of \$60,000, offered by eleven citizens of Reno, was accepted as being the most eligible before the Board. Lawyer Hayden informs a GAZETTE reporter that S. F. Hoole, one of the bidders, will contest the award. He will hold that the law is mandatory, and commands the acceptance of the lowest responsible bid. Now that the citizens have the award it may be expected that work will be pushed forward rapidly. The GAZETTE's contemporary intimates that work may be commenced within one week. The contract must be completed within six months. It is expected in Carson that the Supreme Court will render its decision on Saturday next, if not then, the matter must go over until July 15th.

How Is My Face?

This was the question, says the Tribune yesterday, of a not very cleanly individual to a well known barkeeper. He stood in front of the counter, and looking in the glass, put the question. "Your face would be a fine recommendation at the gates of the county jail, my friend; its dirty, bad-looking and looks like that of a regular tramp and whisky bum." "That's all right," said the fellow. "I just asked for a matter of curiosity, and if your reply had been any way favorable I would have stopped a while and spent a few of these twenty dollar pieces with you," at the same time showing up a handful of the glittering coins. Sequel—Barkeeper tearing his hair; cursing his luck and kicking in the head of a nearly empty whisky barrel. The man was a woodchopper, just paid off.

An Unseen Railroad.

Very few people know that there is a narrow gauge road in operation about six miles west of Franktown. The road is one and a half miles in length, employs an engine and wood and logging cars. The road connects with an incline, which runs up the mountain to a point higher than the Water Company's tunnel. From here wood is flumed through the V. & G. H. Water Company's tunnel, and is landed at the dump at Lakeview. The incline is run by an engine stationed at the top, and the cars clutch the chain on the same principle as is used in street railroads. The incline proper is about 2,000 feet in length. This line belongs to the Sierra Nevada Wood and Flume Company.

Population and Moisture.

The Census office has issued a table giving the population as proportioned to the annual rainfall. Twenty-five per cent. of the people live where the rainfall is between 45 and 50 inches; twenty-two per cent. between 40 and 45; twenty per cent. between 35 and 40; ten per cent. between 30 and 35; eight and one-half per cent. between 25 and 30; six per cent. between 20 and 25; and one and three quarters per cent. above 60. Below ten inches the population is one-third of one per cent.; but ten years ago it was one-fifth of one per cent., so there is hope for Nevada yet.

A Wrong Story.

The Carson Index had a stick of mis-statements about the Nevada & Oregon Railroad, the other day. Among other things it said that the white men were being discharged and sent off without their pay; and Chinamen put in their places; that the line was more difficult than was reported etc., all of which and other statements of a like nature, are flatly contradicted here. The Nevada & Oregon Railroad Company is sound and solvent and will pay the men just as it has advertised.

She Was Bullious.

At Lake Tahoe after a ball. Mrs. X.—"Oh dear me! my feet are swelled and I can't get my boots on." Mrs. Y.—"Now just see Mrs. Q's hair frizzes, so nice, and mine won't friz at all. Why what's the matter with you Mrs. X?" Mrs. Z.—"Oh, I'm bilious, I believe. I've got boil on my stomach."

JOTTINGS.

—The demand for farm hands in Paradise Valley exceeds the supply.

—Mrs. Alt will have a dance at Reform Club Hall this evening.

—John Sunderland's spring hats make the boys go down in their pockets.

—Mrs. Taubert advertises a small house and lot at a bargain. See 50-cent column.

—Washoe valley crops will not be a failure, although the hoppers have cleared the ground in spots.

—The wood camp at Lakeview will soon be empty, and shipments will commence from Franktown.

—Carson has made preparations for a grand celebration on the Fourth of July. They want Reno to come up.

—The regular semi-annual election of officers of the Reno Athletic Club will take place this evening. A full attendance is requested.

—There is now only 4,000 or 5,000 cords of wood at Marker's Washoe dump. The scarcity of hands may run the completion of the contract into another year.

—The hot weather of the last day or two has drawn down the cool air from the Sierra in sweeping gales. The clouds now gathering would give down a shower in any other country.

—Hon. T. V. Julien sat up all night to watch the comet. He says there is only one visible here. It does not set entirely, but sinks partially below the horizon and comes up headed the other way. The tail is visible all the time.

Be Neat and Virtuous.

There is no excuse for slovenly habits and appearance. A man who keeps himself neat and well dressed, always has so much capital invested in his own welfare. If clothing was now sold at the old exorbitant rates, a poor man might justify himself when dressed poorly. The Reno White House will accommodate a slender purse as well as the Bonanza sack. The Abrahams Brothers have costumes for all classes, and they are well made and stylish. Clothe yourself properly and be happy.

Uncle George's Monument.

Uncle George Cornwall, one of the first passenger conductors on the Humboldt division of the Central Pacific railroad, died at Elko some time since, and after he had quit railroading. He had many friends among the public, as well as the railroad men. The latter subscribed \$110 to purchase a tombstone for Uncle George, and the Elko Independent learns that Conductor H. C. Davis has just received notice that the stone is finished and will soon reach there from San Francisco.

In the District Court.

Yesterday at Carson the taking of the testimony in the matter of J.M. Douglas of Mason's valley, diverting water from the Walker river for irrigating purposes. By order of the Court certain witnesses are to testify concerning the right of Douglas. Mr. Osborne, the well-known short hand reporter, will take down the testimony. It is expected that the hearing will occupy several days.

Ye Donner Lake.

Parties desiring to go on the Donner Lake excursion must get their tickets before to-morrow night, in order that all may be properly accommodated. There will be a large number, and the more the merrier. The boats at Donner will be in order for the use of excursionists. Children under twelve will be taken at half fare. Get your tickets and enjoy a cool day under the pines.

W. & O. T. Co.

The Washoe and Company, owned by John Tailfords working steadily. Vossy & Co., is panned and is capable of working 40 tons per day. The property is believed to be on a good paying place. This Company will soon put a furnace in Cornucopia, having purchased mining property in that district.

Franktown Wood.

The V. & T. Company is replacing the side track at Franktown. The Sierra Nevada Wood and Flume Company have 1,684 cords of wood at that point awaiting shipment. Cars were run in the dump this afternoon. Franktown wants its name changed to Sandtown.

BY TELEGRAPH.

A Serious Question. New York, June 26.

An Albany special says: The decision made by the Chair yesterday, that a quorum was present in the joint convention, was a genuine surprise to the Democrats, and showed that it was evident they had been calculating on having less than a quorum, and meant to use the fact for the purpose of raising the question as to whether, without a quorum, there could be a ballot, and if any day passed without a ballot, whether the fact did not disqualify the present Legislature from electing Senators, and thus throw the question over to the Legislature to be elected next Fall, thus taking the question to the polls under the United States statute, which ordains that the Legislature shall take at least one ballot every day in its session.

The Graphic, referring to the above, says: The Act of Congress, regulating the election of United States Senators, specifies that a quorum of each House shall be necessary to form a legal joint convention. The incident of yesterday furnishes an excuse for the Democratic majority of the Federal Senate to reject any one who may hereafter be re-elected as Senator by the present Legislature.

The Mexican Railroad Catastrophe.

CHICAGO, June 27.

The Times special from the City of Mexico says: The accident on the Morelos Railway, last Friday evening, loses none of its horror through the receipt of more accurate advices.
